and many others.

The OGU 2025 exhibition stands as the flagship event of Uzbekistan Energy Week (UEW)

The exhibition serves as the most effective platform for industry professionals and representatives of governmental and commercial entities to explore the cutting-edge innovations, state-of-the-art equipment, and advanced technologies, while engaging in direct negotiations with major global manufacturers and suppliers.

The unified UEW exposition brought together

465
companies and brands

from

34
countries

Afghanistan, Austria, Azerbaijan, Belarus, China, Denmark, France, Georgia, Germany, India, Iran, Italy, Japan, Kazakhstan, Kyrgyz Republic, Lithuania, Malaysia, Monaco, the Netherlands, Norway, Poland, Republic of Korea, Romania, Russia, Saudi Arabia, Singapore, Slovakia, Tajikistan, Turkmenistan, Türkiye, the UAE, the United Kingdom, the United States, Uzbekistan.

About the Exhibition

The exposition
occupied an area of **10 516** sq m

**OGU 2025 covered a wide range
of oil and gas industry areas, including:**

- » exploration and development of oil and gas fields;
- » well construction and operation;
- » upstream, midstream and downstream of hydrocarbons;
- » petrochemistry and gas chemistry;
- » automation, digitalization and HSE at facilities;
- » engineering design and maintenance;
- » Environmental, Social, Governance.

Profile of participating companies

- » Mining, geophysics and geology
- » Oil and gas production and processing
- » Well construction and operation
- » Oil and gas equipment
- » CNG filling stations, gas power plants, gas pumping stations
- » Maintenance at oil and gas fields
- » Transportation and storage of energy resources
- » Engineering and consulting
- » Instrumentation and control, etc.

National and collective stands:

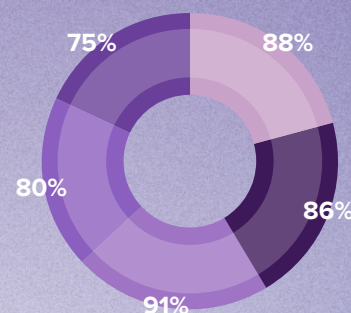

Republic of Belarus, China, Germany, Italy, Republic of Korea, Russia.

69 local companies

396 foreign companies

Survey findings among exhibition participants:

88% gave a positive overall assessment of their participation in the exhibition

86% expressed their satisfaction with the number of visitors

91% were satisfied with the quality of visitor engagement

80% established new business partnerships and client contacts during the event

75% of exhibitors confirmed their intention to participate in next year's exhibition

General Sponsor of the Event

UZBEKNEFTEGAZ

JSC Uzbekneftegaz showcased
10 major national enterprises
in production, processing, and gas
chemistry at its joint exhibition stand.

Uzbekistan Energy Forum

The Energy Forum of Uzbekistan once again affirmed its **position as a premier industry platform** serving as the focal point of an extensive business programme.

A highlight of the forum was the **International Conference**, which covered the pressing issues in the development of the gas and oil industry, as well as the gas-chemical and petrochemical sectors.

The event featured **16** business sessions

with contributions from **122** renowned speakers and moderators

A total of **1,502** delegates

took part actively engaging in discussions on strategic development areas of the energy sector.

66

G2B, B2B
meetings

13

agreements on expanding
cooperation

G2B and **B2B** meetings, together with the **signing of agreements** between the Ministry of Energy of Uzbekistan and major international companies, served as central elements of the Forum's Business Programme, aimed at reinforcing practical cooperation.

Socially significant events under the auspices of Uzbekneftegaz JSC:

- » Hackathon,
- » Zakovat intellectual game,
- » Business Quiz,
- » **Start-up competitions:**
 - “The best innovative idea”,
 - “The best optimization proposal”,
 - “Presentation of the best technologies”,
- » Children's drawing contest about energy efficiency,
- » Guided tour for young professionals

UZBEKNEFTEGAZ

Feedback from participants

**Mr. Giorgio Veronese,
President, Italian-Uzbek Chamber
of Commerce (CIUZ)**

"We have been taking part in the OGU exhibition and Energy Week for many years, and this year, around ten companies joined our collective stand. We successfully established connections with our target audience. As one of Iteca Exhibitions' long-standing partners, we greatly appreciate the consistent support provided to our participants. We certainly intend to take part again next year."

**Mr. Abdulaziz Alobaidli,
Chief Operating Officer,
Masdar**

"Uzbekistan Energy Week, along with the exhibition itself, is undoubtedly a vital platform for project-focused companies like ours. It offers the opportunity to meet partners and key stakeholders, establish dialogue with government agencies, and gain deeper insight into both local and international contractors. It also allows us to explore new products and solutions that may be integrated into our projects. This platform plays an essential role in helping us stay informed about the latest developments in the country."

**Mr. Dmitry Simankov,
Commercial Director,
Ural Steel**

"The Ural Steel Group of Companies has maintained a strong presence in the Uzbek market for many years. For over a decade, we have been supplying products and closely cooperating with Uzbekistan's oil and gas sector. The country represents a dynamic and steadily growing market, consistently demonstrating demand for our Holding's products. This exhibition holds significant importance for the development of our business in the region. We participate annually, but above all we proudly serve as a long-standing sponsor, considering it the premier exhibition within the CIS."

Feedback from participants

Mr. Ahmed Fahad,
Deputy Head of Operations
for Central Asia, ACWA Power

"Energy Week proved to be an excellent opportunity for networking and engagement. ACWA Power had a dedicated stand at the exhibition, which allowed us to meet suppliers directly. In fact, we discovered solutions we hadn't previously been aware of. Walking through the exhibition, we were pleased to see a strong presence of local suppliers - exactly what such events are about: meeting, connecting, and building relationships. The quality of the stands was impressive, the level of participation was outstanding, and there was significant interest in ACWA Power throughout the event."

Mr. Murodbek Tilavov,
Director, Asco Pumps

"This is our third time participating in the Oil & Gas Uzbekistan exhibition, and it has proven to be extremely valuable for us. Everything unfolded exactly as we had anticipated and planned: we engaged with a targeted audience - individuals, who showed genuine interest in our products and approached us with clear objectives. As a result, we successfully concluded several contracts. Thanks to our participation in this exhibition, we expect to increase our sales volumes by at least 60%. That's why we are absolutely planning to return for Oil & Gas Uzbekistan 2026."

Mr. Albert Martirosyan,
Director of the Branch in Uzbekistan,
EMK Steeltrade

"The exhibition provides an excellent opportunity to reconnect with our partners, particularly those based in the regions. It allowed us to address several pressing matters through direct discussions. Participation in the exhibition had a positive impact on EMK's sales performance - approximately 35-40% of our contracts were signed as a result of meetings held during the event. Since 2019, we have taken part in the OGU exhibition every year and intend to continue our participation in all future editions."
